Dear Mr. Ryan:

This is to advise you that in view of the very trying economic conditions which confront many of the students at the College, we are not seeking any price increases for this academic year.

In the event of some unforeseen commodity cost increases, we may of course be required to seek commensurate increases, but it is our intention to hold the line on prices, in order to make our services affordable to the College community.

We thank you for the opportunity to work with your office.

Sincerely,

BUTCH YAMALI
President
