

**Suffolk County Legislature Computer Science, Engineering, and Mathematics  
Scholarship (CSEMS) Grant**

(<http://www.sunysuffolk.edu/Web/csems/>)

**A Scholarship Program for Students  
Majoring in Computer Science, Engineering, or Mathematics**

*Description*

Suffolk County Community College, in conjunction with the Suffolk County Legislature, will award to full-time students yearly scholarships in the amount of \$3000 each; recipients must remain enrolled in an approved discipline and maintain a 3.0 grade point average.

To be considered for an CSEMS scholarship:

1. You be a full-time student at Suffolk County Community College with a declared major in computer science, information technology, engineering science, electrical technology, construction technology, or mathematics.
2. If you are an entering student, you must provide an official high school transcript showing your weighted GPA. Continuing students will be accepted into the program based on a review of their Suffolk transcripts.
3. You must complete this application.
4. By the closing application date, you must submit two letters of recommendation from individuals acquainted with your academic ability and achievement (e.g., teacher, counselor, employer).
5. You cannot receive both STEM and CSEMS awards in the same semester. You may apply for both, but if you receive a STEM scholarship, which takes precedent, you will not be considered for the CSEMS award.

Submit the application and supporting documents to

Professor Michael L. Russo  
Riverhead Building, Room 348  
Suffolk County Community College  
533 College Road  
Selden, NY 11784-2899
